CHINA'S LARGEST MANUFACTURER OF PROFESSIONAL FITNESS EQUIPMENT
THE ANNUAL PRODUCTION IS ENOUGH FOR 300,000 DHZ EQUIPMENTS

Oh. So. Pro.

- Powerful yet comfortable.
- Isolateral training supportable.
- Advanced functionality with intuitive operation.
- The most durable aluminium components wrapped in breathtaking industrial design.
- Earn and retain members like nothing else.

The Ultimate

Prone Leg Curl / E7001A

1610*1095*1530 mm

▲ Weight: 255 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg Thanks to the prone design of The Prestige Pro Series Prone Leg Curl, users can easily and comfortably use the device to strengthen calf and hamstring muscles. The design of eliminating the elbow pad makes the structure of the equipment more concise, and the divergent body pad angle eliminates the pressure on the lower back and makes training more focused.

Leg Extension / E7002A

♣ Dimension: 1425*1165*1530 mm

▲ Weight: 250 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series Leg Extension is designed to help exercisers focus on the major muscles of the thigh. Angled seat and back pad encourage full quadriceps contraction. A self-adjusting tibia pad provides comfortable support, the adjustable back cushion allows the knees to be easily aligned with the pivot axis to achieve good biomechanics.

Leg Press / E7003A

- Dimension: 1870*1086*1530 mm
- ♣ Weight: 357 kg★ Weight Stack: 140 kg

The Prestige Pro Series Leg Press is efficient and comfortable when training the lower body. The angled adjustable seat allows easy positioning for different users. The large foot platform offers a variety of training modes, including calf exercises. Integrated assist handles on both sides of the seat allow the exerciser to better stabilize the upper body during training.

Lateral Raise / E7005A

1300*970*1530 mm

▲ Weight: 213 kg

Weight Stack: Standard: 110 kg
Heavy: 135 kg

The Prestige Pro Series Lateral Raise is designed to allow exercisers to maintain a sitting posture and easily adjust the height of the seat to ensure that the shoulders are aligned with the pivot point for effective exercise. The gas-assisted seat adjustment and multi-start position adjustment are added to improve the user's experience and actual needs.

Shoulder Press / E7006A

1550*1550*1530 mm

▲ Weight: 260 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg ■ The Prestige Pro Series Shoulder Press offers a new motion trajectory solution that simulates natural motion paths. The dual-position handle supports more training styles, and the angled back and seat pads help users maintain a better training position and provide corresponding support.

Rear Delt/Pec Fly / E7007A

Dimension: 1280*1430*2075 mm

▲ Weight: 248 kg

■ Weight Stack: 95 kg

The Prestige Pro Series Rear Delt / Pec Fly offer a comfortable and efficient manner to train upper body muscle groups. The adjustable rotating arm is designed to adapt to the arm length of different users, providing the correct training posture. Oversized handles reduce the extra adjustment needed to switch between the two sports, and gas-assisted seat adjustment and wider back cushions further enhance the training experience.

Vertical Press / E7008A

1435*1125*1530 mm

▲ Weight: 281 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series Vertical Press is great for training upper body muscle groups. Assisted footrests are eliminated, and an adjustable back pad is used to provide a flexible starting position, which balanced both comfort and performance. The split-type motion design allows exercisers to choose a variety of training programs. The low pivot of the movement arm ensures proper path of motion and easy entrance/exit to and from the unit.

Dip/Chin Assist / E7009A-G01

□ Dimension: 1930*1000*2495 mm

▲ Weight: 280 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series Dip/Chin Assist is optimized for pull-ups and parallel bars. The standing posture is used instead of the kneeling posture for training, which is closer to the real training situation. There are two training modes, assisted and unassisted, for users to freely adjust the training plan.

Standing Calf / E7010A

1860*820*1530 mm

▲ Weight: 280 kg

■ Weight Stack: Standard: 80 kg Heavy: 95 kg ■ The Prestige Pro Series Standing Calf is designed to train the calf muscles safely and effectively. Adjustable height shoulder pads can fit most users, combined with anti-slip foot plates and handles for safety. The Standing Calf provides effective training for the calf muscle group by standing on tiptoes.

Lat Pulldown / E7012A-G01

Dimension: 1190*1200*2230 mm

▲ Weight: 275 kg

■ Weight Stack: Standard: 110 kg

Heavy: 135 kg

■ The Prestige Pro Series Lat Pulldown follows the usual design style of this category, with the pulley position on the device allowing the user to move smoothly in front of the head. The Prestige Pro Series powered gas assist seat and adjustable thigh pads make it easier for exercisers to use and adjust.

Rotation / E7018A

1150*1130*1530 mm

▲ Weight: 260 kg

■ Weight Stack: Standard: 65 kg Heavy: 95 kg The Prestige Pro Series Rotary Torso maintains the usual design of this type of equipment for comfort and performance. The kneeling position design is adopted, which can stretch the hip flexors while reducing the pressure on the lower back as much as possible. The uniquely designed knee pads ensure the stability and comfort of use and provide protection for multi-posture training.

Abductor & Adductor / E7021A

1550*860*1530 mm

▲ Weight: 265 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg ■ The Prestige Pro Series Abductor features an easy-adjust start position for both inner and outer thigh exercises. Improved ergonomic seat and back cushions provide users with stable support and a more comfortable experience. The pivoting thigh pads combined with an adjustable starting position allow the user to quickly switch between the two workouts.

Seated Leg Curl / E7023A

♣ Dimension: 1665*1145*1530 mm

▲ Weight: 270 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg ■ The Prestige Pro Series Seated Leg Curl features a new construction designed to provide more comfortable and efficient leg muscle training. The angled seat and adjustable back pad allow the user to better align the knees with the pivot point to promote full hamstring contraction.

Glute Isolator / E7024A-G01

♣ Dimension: 2145*1030*1830 mm

▲ Weight: 280 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series Glute Isolator based on the floor standing position and is designed to train the muscles of the glutes and standing legs. Both the elbow and chest pads have been ergonomically optimized to ensure comfort in training support. The motion part feature fixed double-layer tracks, with specially calculated track angles for optimal biomechanics.

Seated Dip / E7026A

Dimension: 1320*1055*1530 mm

▲ Weight: 260 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg ■ The Prestige Pro Series Seated Dip replicates the motion path of the traditional parallel bar push-up exercise, providing a comfortable and effective way to train the triceps and pecs. The angled back pad reduces pressure while improving stability and comfort.

Camber Curl / E7030A

Dimension: 1500*930*1530 mm

▲ Weight: 192 kg

■ Weight Stack: Standard: 80 kg

Heavy: 95 kg

■ The Prestige Pro Series Biceps Curl has a scientific curl position. Adaptive handle for comfortable grip, gas-assisted seat adjustment system, optimized transmission which all make the training easier and effective.

Back Extension / E7031A

Dimension: 1285*1055*1530 mm

▲ Weight: 250 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg ■ The Prestige Pro Series Back Extension have a walk-in design with adjustable back rollers, allowing the exerciser to freely choose the range of motion. At the same time, the Prestige Pro Series optimizes the pivot point of the motion arm to connect it with the main body of the equipment, improving stability and durability.

Long Pull / E7033A-G01

Dimension: 1780*1320*1830 mm

▲ Weight: 226 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series LongPull follows the usual design style of this category. As a mature and stable mid row training device, the LongPull has a raised seat for easy entry and exit, and independent footrests support users of all sizes. The use of flat oval tubes further improves the stability of the equipment.

Vertical Row / E7034A

♣ Dimension: 1505*1005*1530 mm

▲ Weight: 245 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series Vertical Row features a split-type motion design with adjustable chest pads and a gas-assisted adjustable seat. The 360-degree rotating adaptive handle supports multiple training programs for different users. Users can comfortably and effectively strengthen the muscles of the upper back and lats with the Vertical Row.

Pull Down / E7035A

Dimension: 1520*1445*1795 mm

▲ Weight: 275 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg ■ The Prestige Pro Series Pulldown features a split-type design with independent diverging movements that provide a natural path of motion. Thigh pads provide stable support, and the angled gasassisted adjustment seat can help users easily position themselves correctly for good biomechanics.

Abdominal Isolator / E7073A

♣ Dimension: 1150*1060*1575 mm

▲ Weight: 225 kg

■ Weight Stack: Standard: 110 kg Heavy: 135 kg The Prestige Pro Series Abdominal Isolator is designed in a kneeling position. The advanced ergonomic pads not only help users maintain the correct training position, but also enhances the training experience of the exercisers. The unique split-type motion arms design of the Prestige Pro Series allows exercisers to strengthen the training of the weak side.
